DESCRIPTION OF FERRETTI 150 FLY

This classic Ferretti combines Italian design, solid build quality, and impressive performance with generous living spaces for comfortable onboard accommodation. The boat offers a perfect balance between sporty performance and comfortable long-distance cruising, making it ideal for both extended holidays and spontaneous day trips.

The helm station is located to port, with all controls conveniently within reach, while a small seating area is situated on the opposite side.
The truly spacious and bright saloon offers wonderful views and features a comfortable sofa with a large folding table, perfect for socializing.
A very well-equipped galley is located a few steps down to starboard, centrally positioned yet somewhat secluded.
Forward is a luxurious owner's cabin with a large berth, a lot of storage and direct access to the bathroom.
Two comfortable cabins with double berths are located amidships on both sides.
The two bathrooms are equipped with a WC, bidet, and shower.

The spacious aft deck is a wonderful extension of the saloon, providing an ideal area for socializing in the open air.
Beneath the aft deck are a small crew cabin and a well-insulated, large engine room housing the durable MTU Mercedes-Benz engines and other technical equipment.
The RIB-tender is stored on the bath platform and can be launched easily using the hydraulic gangway.

The spacious flybridge is a fantastic place for the entire crew to enjoy when weather permits, while also providing the captain with even better visibility during harbor maneuvers.

This Ferretti is in good condition and very well equipped (see separate specification).
It has no significant damage or groundings.
Winter storage in warm hall.

The boat is being sold by its second owner and is available for viewing in Hanko, located 1.5 hours west of Helsinki – Finland.
